

The figure is a line plot with a logarithmic x-axis and a linear y-axis. The x-axis is labeled 'Number of nodes' and has major ticks at 100, 500, 1000, 5000, 10000, 50000, 100000, and 500000. The y-axis is labeled 'Number of iterations required for convergence' and has major ticks at 0, 20, 40, 60, 80, and 100. A horizontal red line is plotted at approximately y = 10. There are red star markers at each data point on this line, corresponding to the x-axis values: 100, 500, 1000, 5000, 10000, 50000, 100000, and 500000.

Number of nodes	Number of iterations required for convergence
100	~10
500	~10
1000	~10
5000	~10
10000	~10
50000	~10
100000	~10
500000	~10
