

The graph illustrates the performance of various algorithms in terms of the number of nodes in the tree. The 'small' algorithm maintains a constant number of nodes in the tree, while others grow linearly with the input size.

Algorithm	Nodes in Input Graph	Nodes in Tree
small (red line with diamond markers)	100	10
	500	10
	1000	10
	5000	10
	10000	10
	50000	10
	100000	10
	500000	10
	1000000	10
	5000000	10
quick (blue line with circle markers)	100	10
	500	20
	1000	30
	5000	50
	10000	60
	50000	80
	100000	90
	500000	100
	1000000	100
	5000000	100
